PALLADON VENTURES LTD.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
NOVEMBER 30, 2006 AND FEBRUARY 28, 2006

Note 1 Nature and Continuance of Operations

Palladon Ventures Ltd. (the “Company”) is a public company incorporated on August 25, 1980 under the Company Act of British Columbia and is in the business of acquiring, exploring and evaluating mineral properties, and either joint venturing or developing these properties further or disposing of them when the evaluation is completed. As at November 30, 2006, the Company was in the exploration stage and had interests in properties located in Argentina and the United States of America. The Company is listed on the TSX Venture Exchange (the “Exchange”) and the Frankfurt exchange.

The Company is in the exploration stage and is in the process of exploring its mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and deferred exploration costs is dependent upon the discovery of economically recoverable reserves and confirmation of the Company’s interest in the underlying mineral properties, the ability of the Company to obtain necessary financing to complete the development of the properties and upon future profitable production or proceeds from the disposition thereof.

The financial statements have been prepared using Canadian generally accepted accounting principles applicable for a going concern which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. As at November 30, 2006, the Company has not yet achieved profitable operations and has accumulated losses of \$14,022,771 since its inception. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due. These financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

Note 2 Significant Accounting Policies

These unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a basis consistent with those followed in the most recent audited financial statements. These unaudited consolidated financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. Therefore readers are advised to refer to the company's annual audited financial statements for the year ended February 28, 2006 for additional information.

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in Canada and are stated in Canadian dollars. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates that have been made using careful judgement. Actual results may differ from these estimates.

The Company is obligated to provide an amount of US\$1,300,000 as security for future reclamation work. The Company has deposited 50% of the amount (\$732,615 (US\$650,000)) with a government agency. The Company has obtained an insurance policy to fund the balance in the event that a claim is made.

Note 5 Mineral Properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing. The properties in which the Company has committed to earn an interest are located in Argentina and the United States and the Company is relying on title opinion by legal counsel who is basing such opinions on the laws of Argentina and the United States, respectively.

Concurrently with the acquisition, the parties negotiated for the buyout of WUCC’s interest for US\$3.5 million plus the forgiveness of approximately US\$1,500,000 in loans and accrued interest receivable (Note 3) previously made by the Company to WUCC. The Iron Springs properties are held by the Company’s subsidiary, Palladon Iron Corporation. During the year ended February 28, 2006, in connection with the refinancing of the interim loan, the Company sold 50% of its interest in Palladon Iron Corporation, at cost, to Luxor for US\$3,000,000.
